MEMORANDUM FOR THE RECORD

SUBJECT: Further Conversation with Mr. Hugh Cussing,
Director, Intelligence and Research, Department
of State, Regarding Proposed CHALICE Missions in
China

1. At 1905 hours, I managed to get a call through to Mr. Cussing whom I had seen earlier today on the subject matter, and he said that after considerable difficulty he had been able to get to the Acting Secretary of State, Mr. Christian Herter. Mr. Cussing briefed the Acting Secretary along the lines I discussed with Mr. Cussing this morning, and asked Mr. Herter for Department of State approval for the proposed China missions.

2. According to Mr. Cussing, Mr. Herter gave his full approval to the proposal at approximately 1830 hours this date. I thanked Mr. Cussing for his persistence, and immediately advised Mr. Bissell of the verdict.

1. War Risk Insurance for Contractor Employees - Mr. Cunningham announced that under a bill presently on the President's desk for signature, contractor employees would be indemnified for loss of life caused by an act of war or invasion. If this legislation is passed, the special arrangements for war risk insurance previously discussed would not have to be undertaken. The General Counsel is to inform us if and when the bill is signed at which point the detachments may be informed of specific coverages.

6. Edwards Test Schedule - A proposed test schedule which would call for 20 hours per month flying time on each of the 6 U-2's has been sent to Edwards but no reply has been received. Under this plan the deployment of 2 U-2's from the 21 within 48 hours is possible.

25X1A

Mr. Bissell requested [] to make a recommendation on whether under this schedule we would be in a position to give one more U-2 to SAC. Mr. Bissell stated that he wanted to do this if we could work it out, partially because SAC's resources have been depleted.

1. War Risk Insurance for Contractor Employees - [] announced that the President has signed into law PL-85-608 which gives, among other things, coverage under the Federal Employees' Compensation Act to personnel engaged under contract by commercial suppliers which in turn have contracts with the United States Government. Thus, our contractor employees have the same coverage as staff employees in the event of death or disability caused by "a hostile force or person."

ACTION: Completed

2. Sanitization of "T" Material for the Navy - Mr. Reber announced that he had met with General Cabell concerning the letter that will be sent to Admiral Burke in reply to the latter's request that "T" material be made available for Navy strike pilots. In essence, the letter will state that if Admiral Burke, after the presentation of certain facts, still desires to press his request, it will have to be referred to the President for decision.

ACTION: Completed

25X1A

3. Negotiations - [] stated that State Department concurrence had not been received on the trip to brief [] and request his permission to utilize []. It was the opinion of Mr. Hugh Cumming that the decision could not be made by other than the Secretary, who was not expected to return to Washington until the night of 20 August at the earliest. This probably would not permit the briefing party to depart on 21 August, a date that has already been twice delayed. Col. Burke stated that he was going to see General Cabell on the afternoon of 19 August to brief him on this situation, among others.

25X1A
25X1A

Col. Burke announced that U-2 aircraft under our control are not restricted in any way at this time and that the lifting of restrictions for our aircraft had the concurrence of Mr. Kelly Johnson and General Flickinger.

7. China Operations - With Presidential approval having been received for penetration missions into China to examine the CHICOM buildup west of Formosa, the only delaying factor is target weather.

8. Availability of Personnel on ZI TDY - As a result of some confusion occurring during the week of 18 August by a heavy exodus of ZI TDY travelers, Col. Burke asked [] to draw up a short procedure which basically would call for the registering of itineraries with the Admin office so that personnel could be contacted if necessary. [] commented that such itineraries filed in advance would be useful in the requests that he receives from various government sources for persons to travel with our personnel to meet suppliers. [] added that the presence of travelers in the general West Coast area should always be communicated to our personnel at Edwards.
